

"Our brand provides a scientific avenue to successfully deal with varied human & animal health concerns."

NEUTRACUTICALS

Products derived from food sources that provide additional health benefits beyond basic nutritional value. These includes dietary supplements, functional foods, and fortified foods, aiming to promote health and support the structure or function of the body.

AYURVEDIC

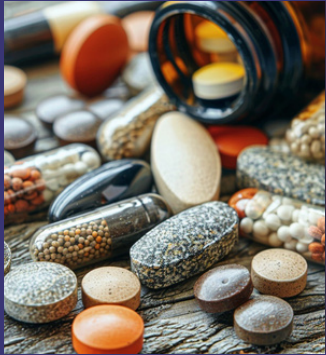

Ayurveda is an ancient system of medicine that originated in India over 5,000 years ago. Ayurvedic product development involves creating health and wellness products based on these traditional principles, often integrating modern scientific techniques for validation and quality assurance.

VETERINARY

Veterinary medicine is a field of study and practice that focuses on the health and well-being of animals. Veterinarians are medical professionals who are trained to diagnose, treat, and prevent diseases and injuries in a wide range of animal species, including pets, livestock, and wildlife.
